#### Search Notes

Examiner Duffy,

Please review the attached search results.

If you have any questions or if you would like to refine the search query, please feel free to contact me at any time.

Thank you for using STIC search services!

RE:

Dear Paul or STIC,

Please search the extra long sequence. The search is necessary for the examination of the application.

Thanks,

#### Mike Pak

Importance: High

Dear Mike,

Please approve the search for US 09/767,041. The nucleic acid is 6000 bp long and the claim requires that the bacterium have the entire sequence or specific oligomeric fragments thereof. The search is going to take over 20 hrs and Paul Schulwitz needs your approval to run this search. Please send approval to Paul to expedite.

Thanks. Mucho have a great holiday.

Pat Duffy

Dear Stic:

In re: 09/767,041

Please search SEQ ID NO:9 and oligomers thereof.

Patricia A. Duffy, Ph.D.

Submitted (09-DEC-2004) Submitted on behalf of the Pathogen Sequencing Unit, Sanger Institute, Wellcome Trust Genome Campus, Hinxton, Cambridge CB10 18A, E-mail: sd&Baanger.ac.uk NOTE: This sequence was generated from a PCR product representing the region from dexB to aliA and is not necessarily responsible for the expressed capsule serotype. For a detailed description of how CDS products were predicted see the associated publication.
                                                                                                                                                                                                                                                                            Bentley, S.D., Aanensen, D., Mavroidi, A., Saunders, D., Rabbinowitsch, B., Collins, M., Donaghue, K., Harris, D., Murphy, L., Quail, M.A., Samual, G., Skovsted, I.C., Barre Reeves, P., Parkhill, J. and Spratt, B.G. Genetic analysis of the capsular biosynthetic locus freerotypes of Streptococcus pneumoniae
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               Streptococcus pneumoniae Streptococcus pneumoniae
